Anoka, MN

SP08126

The Central Region Center for the Advancement of Prevention Technology (CAPT) assists States and Communities in applying the latest available prevention research findings. The Central Region CAPT includes North Dakota, South Dakota, Minnesota, Iowa, Wisconsin, Illinois, Indiana, Ohio, West Virginia, Michigan, and the Red Lake Chippewa Band. The program will prioritize regional problems related to alcohol, tobacco, and other drug use; develop a regional prevention needs and resources profile; assist the State Incentive Program grantee and other clients to conduct local needs, opportunities, and readiness analyses; develop criteria to be used to guide selection of prevention technologies; develop and implement a process for packaging prevention technologies; develop and implement an easily accessible electronic communications network; establish a telecommunications support center; provide on-site technical assistance and specialized training; and design and implement an evaluation plan.

FY 99 Funding: \$96,123

Project Period: 9/30/99 - 9/29/01

Anoka, MN

SP08809

This program will increase parental and family resilience and reduce and prevent substance abuse by family members within at least 30 Chicago Latino families. Through this effort the community will have an increased capacity to implement effective family intervention programming for the Chicano Latino community nationwide. Project goals include: building consensus that will result in selecting a program model for implementation, select, adapt and, pilot test prevention intervention programs that best incorporates the criteria for prevention programming, and conduct a field study of the intervention model.

FY 99 Funding: \$96,123
Project Period: 9/30/99 - 9/29/01

Health Nations Strong Families will address the serious substance abuse issues affecting an urban Native American community. This project aims to reduce substance abuse among this population by strengthening selected protective factors that research had shown to provide resilience for Native American youth. This project will lead the community through a consensus building process that involves examination of prevention strategies with demonstrated effectiveness to select one or several strategies to employ with 40 families. The program will implement these strategies during a test period that lasts fourteen months, and then there will be an assessment of effectiveness in building protective factors, in achieving specific objectives in the areas of knowledge attitudes and behaviors with the targeted families.

Hmong American Partnership
High Risk Youth - Project Youth Connect
Congressional District: MN-04
FY 99 Funding: \$417,864
Project Period: 9/30/98 - 9/29/01

St. Paul, MN
SP08295

The High Risk Youth project seeks to reduce substance abuse among high-risk Hmong fourth-through sixth-graders in the Twin Cities metropolitan area. Interventions include a semi-weekly after-school program; high school and college mentor tutoring and homework assistance; individualized academic plans; a weekly drug abuse and gang prevention curriculum; sixth-grade peer leadership training; parent training; family activities; home visits; cultural in-services for school staff; a Hmong phone line for Hmong parents; and housing the Hmong Pride worker at the school to serve as a liaison for the school, parents, and students.

Office of The Governor
State Incentive Grants
Congressional District: MN-04
FY 99 Funding: \$2,962,217
Project Period: 7/15/98 - 7/14/01

St. Paul, MN
SP08183

Minnesota's State Incentive grant project, Minnesota Prevention Forward to the Future (MPFF) will reengineer and redirect the State's substance abuse prevention funding in order to reduce youth substance abuse. The MPFF project includes: analyzing all existing substance abuse prevention funding streams; identifying gaps in current prevention funding and other resources; using the results of prevention research and evaluation to identify effective prevention strategies; developing and implementing a long-range plan to redirect all prevention funding sources in Minnesota to eliminate gaps and utilize most effective approaches; developing criteria for awarding and evaluating State Incentive Grant funds to local communities; and providing training and technical assistance in implementing promising prevention programs at the local level.
